We as anarchists take resposnibility for some vandalism in Semarang for International Solidarity with Marius Mason and long term anarchist prisoners! For Greek anarchist prisoner as member of Conspiracy of Cells of Fire, Christos Tsakolos. We proud of you as you are staying on the path of your revolutionary life! We send hug to Alfredo Cospito. And we don't forget too the prisoners of the state in Indonesia like Bima Satria Putra, John Sondang Pakpahan and Sidiq. We calling to our comrades in other city to join this calling!

Attack the state and capital!

DN Notes: John Sondang Pakpahan was already released some time ago and it is clear that John co-operated with police as a snitch, as can be confirmed by the following article, written by 'security industry terrorism specialist', scum parasite Muh Taufiqurrohman.
